

Infant Warming Cocoon

Infant Warming Cocoon
(26" x 26")
Part # G1W6C
Weight: 9.5 oz
UPC: 94922-82224-6
Case of 24

Key Features

- Air activated blanket that warms to a minimum of 100°F / 38°C within 15 minutes of breaking the package seal. The blanket will maintain that temperature for 8 hours.
- Used in the prevention of hypothermia and temperature management for the most precious cargo. Has an attached hood for extra protection and comfort.
- Recommended to be used in conjunction with our Ready-Heat™ one panel blanket which is to be placed underneath for constant warming should the cocoon front need to be opened for patient access.

Typical Ready-Heat™ User

- EMS/EMT First Responder
- Hospital/Neonatal Intensive Care Unit
- Emergency Room
- Fire Department
- Search & Rescue
- Air Ambulance
- Disaster Trailer
